DEKALB COUNTY DRAINAGE BOARD MEETING

March 3, 2022

Drainage Commissioners Present:

Michael V. Watson, Chairman Bruce Bell, II, Vice-Chair William L. Hartman, Member Sandra M. Harrison, Member James A. Miller, Member **Others Present:**

Michael C. Kline, County Surveyor Nathan Frye, First Deputy Surveyor Michelle Lassiter, Secr. /Drainage Board Admin. Asst. Shannon Kruse, Attorney

Guests:

Joni Luke

Absent:

None

Chairman Mike Watson called the regular meeting of the DeKalb County Drainage Board to order at 8:00 a.m.

APPROVAL OF MINUTES

A motion was made by Bill Hartman to approve the Minutes of February 24, 2022, as the standard minutes of the DeKalb County Drainage Board. The motion was seconded by Bruce Bell, II, the motion carried.

VARIANCE REQUEST – 4740 COUNTY ROAD 47 JAMIE & JONI LUKE POLE BARN REQUEST – *THOMAS GEORGE TILE DRAIN NO. 117-00-0*: Joni Luke presented the request to construct a pole barn no closer than fifty feet to the Thomas George Tile Drain No. 117-00-0. Mr. Kline recommended the Board approve the request, stating the barn would cause no issues for future maintenance or reconstruction of the drain.

Jim Miller moved to approve the variance for a pole barn to be constructed no closer than fifty feet to the *Thomas George Tile Drain No. 117-00-0* by the Lukes at 4740 CR 47 based on the Surveyor's recommendations, the motion was seconded by Sandy Harrison, motion carried.

Mr. Watson cautioned Mrs. Luke that should the Drainage Board or Surveyor's Office find the barn impedes future work on the drain, the Lukes would be responsible for any additional cost the barn might cause the drain account to incur due to the barn's location in relation to the drain. Mrs. Luke stated she understood the stipulation.

FRONTIER COMMUNICATIONS UTILITY PERMIT REQUEST – COUNTY ROAD 16 BETWEEN COUNTY ROAD 51 & COUNTY ROAD 53 – GEORGE MATSON OPEN DRAIN NO. 73-00-0: Mr. Kline stated Frontier was requesting a utility permit to provide service to Judy Kaufman at 5334 County Road 16. The project would require line work on the north side of the road, on the west side of the drain, between two pedestals. The eastern pedestal was fifty-five feet from the top of the bank of the drain. Frontier already had lines crossing the drain.

Bruce Bell, II moved to approve the utility permit for Frontier Communications for work within the right-of-way of the *George Matson Open Drain No. 73-00-0* on the north side of County Road 16 between County Road 51 and County Road 53 to provide service to 5334 County Road 16. Bill Hartman seconded the motion, motion carried.

FRONTIER COMMUNICATIONS UTILITY PERMIT REQUEST – COUNTY ROAD 52 BETWEEN COUNTY ROAD 15 & COUNTY ROAD 17 – A. J. CUSTER TILE DRAIN NO. 299-00-0: Mr. Kline explained Frontier was requesting a utility permit to provide service to the Stewards at 1622 County Road 52. The project would cross the tile drain as the service drop was made along

the Stewards' driveway. Mr. Kline stated he had no concerns with the lines crossing the drain. He would have his inspectors ensure the drain was not damaged by the contractor.

Bill Hartman moved to approve the utility permit for Frontier Communications for crossing the A. J. Custer Tile Dain No. 299-00-0 while providing a service drop to 1622 County Road 52. Jim Miller seconded the motion, motion carried.

SURVEYOR'S REPORT

Mr. Watson asked for the Surveyor's Report, Mr. Kline provided the following information:

E. P. SHERWOOD TILE DRAIN NO. 162-00-0: Mr. Kline informed the Board he had been notified by the DeKalb County Highway Department regarding flooding on County Road 23. In investigating the issue the Surveyor's inspectors found significant holes in the E. P. Sherwood Tile Drain No. 162-00-0 where it went through a wooded area on land owned by William and Laura Papaik. The tile status was such Mr. Kline felt it should be reconstructed. Trees would need to be removed 30 – 40 feet on each side of the tile to allow equipment access. However, Mr. Papaik did not want to allow the Surveyor's Office access to do so. Mr. Papaik only wanted to allow spot repairs. Mr. Kline did not feel spot repairs would alleviate the road flooding issue sufficiently. Mr. Kline reported the downstream section of the tile had been repaired repeatedly and was not in good shape. Mr. Kline was asking what the Board would support to get the water off the road. The Board consensus was Public Safety had to be the number one concern.

During a further discussion of the drain, it was found that the *E. P. Sherwood Lateral 2 Tile Drain No. 162-02-0* went south across Us Hwy 6. The water in this drain flowed north to the *E. P. Sherwood Tile Drain No. 162-00-0*. Mr. Kline stated that since there was a potential wetland where the drain crossed County Road 23, he would purpose a structure on the west side of the road set at normal wetland level that would pick up excess water in times of heavy rain or snowmelt. Mr. Kline stated it was a possibility to have solid tile go through the Papaik's woods, however, tree roots could still penetrate the tile joints to cause damage to the tile. Local residents had reported the water laying across County Road 23 for about six days with the last rain.

It was decided Mr. Kline would bring to the Board for review a general plan for the construction of the tile. Mr. Kline stated he could not put a solid timeline for a date due to the workload his office has currently.

LEVI DENNISON TILE NO. 317-00-0: Mr. Kline distributed copies of emails received from Mr. Larry Kummer regarding the reconstruction of the Levi Dennison Drain dated 02.19.2022 and 03.02.2022. After giving the Board time to read the emails, Mr. Kline explained that he had met with Mr. Kummer, who is the largest landowner in the watershed, on 03.01.2022 to discuss the Gensic Engineering reconstruction route for the drain. Mr. Kline reported that Mr. Kummer did not like the Gensic Engineering route. Mr. Kline stated he felt Gensics had not followed good procedures regarding getting landowners' input before developing a route for the drain reconstruction. Mr. Kline explained that when developing a drain reconstruction plan he tried to talk to the landowners to get their perspective on flooding issues and where the landowners felt the drain should run.

Mr. Kline further explained he has met with a gas company representative regarding the gas pipeline in the *Levi Dennison Drain's* watershed. The representative told Mr. Kline the gas company would require the drain to be either two feet above or two feet below the gas pipeline. Mr. Kline stated being two feet above the pipeline would provide enough fall for the drain, and being two feet below the pipeline would be below the drain. Mr. Kline also explained that when designing a drain, he used Purdue University's recommendations of .03 cubic feet per square acre to size a drain. Mr. Kline

thought that for the size of the watershed, which was approximately 381 acres, the drain tile size at the bottom end should be at least 24 inches. Mr. Kline stated it was easiest to reconstruct a drain in the same location where it and the related right-of-way already exist.

Mr. Kline explained the route he preferred for the drainage reconstruction and the route Mr. Kummer wanted to use. Mr. Kline stated Mr. Kummer's route would basically only drain his property and a couple of neighboring properties, making the drain more of a private tile than a county-regulated drain, which would leave several landowners without access to the drain. Mr. Kline stated he did not want to vacate the drain, but to reconstruct it to address the needs of the entire watershed. Mr. Kummer wanted to bring in Kellogg Drainage and Clifford Excavating to design and install the reconstructed drain. Mr. Kline stated he designed drains for the long-term for an entire watershed, and he wasn't sure that would be the case if Kellogg and Clifford were hired for the project.

Mr. Kline stated Mr. Kummer had provided Mr. Kline with a lot of watershed history that would help put a drain reconstruction plan together.

Mr. Kline informed the Board there was a substantial suck hole in the field over the drain that would need to be repaired before the reconstruction. The drain had never been placed on maintenance, so he would be asking the Board for permission to put the drain in the red. He explained part of the reconstruction hearing process would be to place the drain on maintenance.

As Jim Miller and Sandy Harrison were new to the Board, Mr. Kline explained he felt outside engineering firms were not well suited to design county drains, as they were more used to designing city storm sewers, which were a different thing altogether. There was a lot of work that had to be done in the field at the time of reconstruction, as there were a lot of unknown factors in play. Most of the county drains had been installed between 1880 and 1920, without any good records having been kept. The State Code had been put in place in the 1960s.

Mr. Kline stated he didn't agree with the plan put together by Gensics as it had drainage structures in the fields. Mr. Kline stated drainage structures in fields usually would plug up with plant material.

Mr. Kline explained the contract with Gensic Engineering was a test project. The Drainage Board had decided to hire an engineering firm to help relieve his office as there were a lot of projects at the time on his office's plate. Ms. Kruse explained the State Code that permitted the Board to declare a drain an emergency and to hire an outside engineering firm. Mr. Kline explained that he was an elected official and a technical advisor to the Drainage Board per State Code. Mr. Kline further stated he wanted to work amicably with the Board as they both were charged in their duties to improve drainage in the county.

It was decided to hold an informational meeting in the near future, inviting all the watershed landowners and Gensic Engineering, so everyone could have input and a plan to go forward could be determined.

REUBEN SAWVEL OPEN DRAIN NO. 444-00-0: Mr. Kline informed the Board he had received a request for an outlet connection to the Reuben Sawvel Open Drain from Rory Walker on behalf of M & P Walker Family Corp. Mr. Walker believed the Surveyor's staff some years before Mr. Kline was in office had damaged a private tile that ran under US Highway 6 and the adjacent railroad tracks by heavily rip-rapping the tile outlet. Mr. Walker was working with the Indiana Department of Transportation (INDOT) to repair/replace the tile under the roadway. Mr. Walker was asking the county to pay for the repair/replacement under the railroad. Mr. Kline stated the county didn't normally repair or pay for repairs of private tile. Mr. Kline stated there was approximately \$8,000.00

in the drain account. A discussion was had regarding the fact that during reconstruction projects pipe was regularly purchased to replace private outlets that were in disrepair before reconnections were made. It was from that discussion the decision was made to pay for the pipe out of the drain account, but not the installation costs.

FRED GROSCUP JR. DRAIN NO. 335-0: Mr. Kline stated Parkview Health, Inc. had signed the consent and waiver for the reconstruction of the Fred Groscup Jr. drain. The document needed to be signed by the County Commissioners, then the Drainage Board. Mr. Kline asked if someone from the Surveyor's Office needed to present the document to the Commissioners on Monday or if one of the Commissioners wanted to take it to the meeting. It was decided that Bill Hartman would take the document to the meeting.

For the new members of the Board, Mr. Kline explained the drain was located on the west side of Interstate 69. The reconstruction would have the drain run from the county-owned pond south to State Road 8 right-of-way. This project was in conjunction with relieving the flooding issues caused by the deterioration of the *John Ketcham Drain 335-00-0* on the east side of Interstate 69 that was detrimental to businesses located in the area. Mr. Kline explained the City of Auburn had hired a consultant who had put a report together regarding the *Ketcham Drain* and was now in the process of putting a reconstruction design together. Mr. Kline further explained there was an Interlocal Agreement between the City of Auburn and the County for the reconstruction of the *Fred Groscup Jr*. drain. The City of Auburn would be paying for the upsizing and manholes, with the County Commissioners paying for the remainder of the project. The plan was for the City of Auburn to take over the drain when completed to manage the development of the area.

The Ketcham Drain would connect into the Auburn Industrial Park Drain No. 256-00-0. Mr. Kline further explained the Auburn Industrial Park drain needed reconstructing as well. This drain was installed in the 1960s and was constructed of sixty-six-inch corrugated metal. At one time 2x4s were holding the drain up in the Kroger parking lot. The drain had been patched. Mr. Kline thought the Auburn Industrial Park drain could be redone by relining the metal with stoned plastic.

2022 DRAIN ASSESSMENTS: Mr. Kline presented Board with the certification letters and list of drains for the 2022 assessments, explaining by Indiana State Code the county was to collect assessments on all drains unless the Drainage Board set criteria for when drains are not collected. Under those circumstances, a list was to be sent to the County Auditor and County Treasurer. However, the Surveyor's Office had found it easier over the years to create a list of drains to be collected and send that list to the Auditor and Treasurer.

Mr. Frye then explained the process used to determine which drains to collect, with all drains in the red or with less than a year's worth of collections being paramount, next were those that would need maintenance during the year, and then any that had less than four years of assessments, but the amount would not be able to provide work should a situation arise. Mr. Frye then explained how the drains for assessment were uploaded into the financial software for collection. Mr. Frye additionally explained the collections were estimates as other factors such as delinquencies would come into play for the collected amount. After reviewing the list of drains and documents, Sandy Harrison moved to approve the list of drains and sign the documents to be sent to the County Auditor and County Treasurer. Bruce Bell, II seconded the motion, motion carried.

DISCUSSION

Mrs. Lassiter informed the Board they had copies of the February 28, 2022 schedule of claims for the Surveyor's Office. Mr. Watson asked if there were any questions regarding the schedule of claims. There were none.

There being no further business, the meeting adjourned at 10:14 a.m.

Michael V. Watson, Chairman

Michelle Lassiter, Administrative Assistant
